order!

Cost share may be available when your purchase is made to implement a shelter belt! Check with your local SWCD.

- *Protects seedlings from various factors, including deer, rabbits, rodents, herbicide drift, and sunscald.*
- *Shields young trees from wind and equipment*
- *Creates a greenhouse-like environment to increase survival and growth.*
- *Provides 5-7 years of protection.*
- *Works well for residential and field plantings*

Video that demonstrates installation of the tree tubes.
